REVISED ANTIGUA AND BARBUDA TRAVEL ADVISORY – SEPTEMBER 10, 2021

The Government of Antigua and Barbuda has updated its travel advisory effective **October 1, 2021** to ensure the continued safety of travelers and residents. The V.C. Bird International Airport is open for international and regional air traffic. The Antigua Port Authority is open to Cargo Vessels, Pleasure Craft and Ferry Services which are required to follow all protocols issued by Port Health.

The State continues to carry out a combination of screening, testing, the issuing of monitoring bracelets and other measures to mitigate the risk of importing any new cases of COVID-19 into the country. Additionally, measures have been implemented for the quick detection of any imported cases. This strategy is intended to protect and safeguard the health of both residents and visitors to Antigua and Barbuda.

In diligent pursuit of the above-stated imperative, the government has imposed restrictions to entry into Antigua and Barbuda on ALL persons who have travelled to the following countries of Brazil and South Africa during the last fourteen (14) days. (This restriction does not apply to flight crews). Passengers from the Dominican Republic are now permitted to travel directly to Antigua and Barbuda.

Nationals and residents of Antigua and Barbuda are strongly advised to avoid all non-essential travel at this time.
